## CZ 455 EVOLUTION VARMINT cal. 22 LR P-H 5-round magazine

Dostępność	<b>Na zamówienie</b>
Numer katalogowy	<b>5074-8091-EMAMAAX</b>
Kod producenta	<b>5074-8091-EMAMAAX</b>
Producent	<b>Česká zbrojovka</b>
Kaliber	<b>.22 LR</b>

### Opis produktu

The CZ 455 Evolution with heavy Varmint barrel is a firearm, which is primarily intended for target shooting. It differs from other models made by Česká zbrojovka particularly in the shape and design of the stock. Modern and ergonomic design makes from this rimfire rifle the evolutionary firearm – it advances established types into further dimension.

The great advantage of the stock is that its configuration is fully ambidextrous. The bolt action handle is placed on the right-hand side only.

A well-proven barreled action of the CZ 455 is complemented with thick-walled barrel in order to secure accuracy of fire for intermediate to long distances and also enables, without effects caused by the barrel temperature, a many more subsequent shots. This rimfire rifle is designated to be shot with optical sights the reliable attachment of which is provided by the dovetail at the upper section of the receiver. The

CZ 455 Evolution comes as standard with a 5-round plastic magazine, with a 10-round magazine as optional.

#### CZ 455

In the new generation of the CZ rimfire rifles we have managed to combine experience accumulated over the years of development and production of this type of firearms with traditionally high quality, long service life, accuracy and modern trends.

This new model of the CZ 455 rimfire rifle is based on classical design, but incorporating a lot of improvements affecting most of the main parts of this rifle. First of all we have answered wishes by many of our customers for having an action enabling interchangeability of barrels. Adopting a new knowledge when making the barrel's muzzle, which we have acquired in the course of development and manufacture of firearms designed for hunting at long distances, allowed shortening of barrel while retaining traditionally high accuracy.

Also the stock witnessed placing of small changes in order to achieve an even greater comfort during shooting. This was attained by optimizing the grip ergonomics, among others, in the pistol grip area. A new method of connecting barrelled-action with the stock is now dominated by only two screws with improved interface securing simpler tightening and superior appearance.

Incorporating new features can be seen also on the sights. The rear signy enables adjustments for elevation and windage and the new shape of front signy base facilitates precise aiming.

The use of cold hammer forged barrel has been again retained as well as the receiver made from a single billet of highquality steel.

Traditionally uncompromising care for details is projected to each unit of this new rifle and will make envy of other shooters be it at target shooting or while hunting.

- Receiver made from a single billet of high-quality steel
- Hammer forged barrel
- Adjustable trigger pull
- Detachable magazine, easy mounting of rifle scope
- Threaded muzzle for Still or Parker-Hale sound moderator attachment (optional)
- Single shot adapters, 5rd and 10rd magazines available to be used in the whole line of the CZ 455 rifles
- 11 mm dovetail at the receiver's upper section

- Chambered in .22LR, .22WMR and .17HMR cal.
- Without sights

**BROŃ PALNA BOCZNEGO ZAPŁONU**

Waga: 3,40 Kg

Kaliber: .22 LR (16")

Kolba: drewno laminowane

Zasilenie systemu: odpinany magazynek

Celownik: bez celownika

Mechanizm spustowy: regulowany

Lufa: kuta na zimno
