### Opis produktu

To make sure this special Night Sky Edition is a fully complete, we must also include the CZ 455 rimfire rifle in the traditional .22 LR calibre. With its unique polymer stock in a soft-touch finish, it contrasts beautifully with the stainless steel trigger blade. The highly accurate, cold hammer forged barrel has a compensator at the muzzle and no mechanical sights, a typical feature of this series. However, thanks to the modular system of the CZ 455 line, a partial customization to meet individual requirements is possible.
