### Opis produktu

All the main parts of the anti-corrosion model CZ 455 Stainless are made of stainless steel and the bolt and small parts are treated with the anti-corrosion arcor finish. The attractive black/green polymer stock is finished in soft-touch.

This variant of the successful CZ 455 rimfire rifle has a highly increased resistance against the weather, especially moisture. It has been achieved by the extensive use of stainless steel combined with the highly durable and abrasion resistant ARCOR surface treatment, based on salt bath nitriding. The stock is made of robust polymer reinforced with glass fibre. For maximum user comfort, it has a soft-touch finish. The result is an attractive weapon that is suitable for all kinds of adverse weather conditions.
