Opis produktu

The CZ 455 SUPER MATCH rimfire rifle is predisposed for the high precision shooting. Barrel bore featuring 12 grooves ensures perfect stability of projectile, a 10 round metal magazine enhances sought after qualities. The rear sight is adjustable for elevation and windage in the wide range of distances. The receiver has factory milled dovetail 11 mm (0.43 in.) wide for the rifle scope mount.

CZ 455

In the new generation of the CZ rimfire rifles we have managed to combine experience accumulated over the years of development and production of this type of firearms with traditionally high quality, long service life, accuracy and modern trends.

This new model of the CZ 455 rimfire rifle is based on classical design, but incorporating a lot of improvements affecting most of the main parts of this rifle. First of all we have answered wishes by many of our customers for having an action enabling interchangeability of barrels. Adopting a new knowledge when making the barrel's muzzle, which we have acquired in the course of development and manufacture of firearms designed for hunting at long distances, allowed shortening of barrel while retaining traditionally high accuracy.

Also the stock witnessed placing of small changes in order to achieve an even greater comfort during shooting. This was attained by optimizing the grip ergonomics, among others, in the pistol grip area. A new method of connecting barrelled-action with the stock is now dominated by only two screws with improved interface securing simpler tightening and superior appearance.

Incorporating new features can be seen also on the sights. The rear signy enables adjustments for elevation and windage and the new shape of front signy base facilitates precise aiming.

The use of cold hammer forged barrel has been again retained as well as the receiver made from a single billet of highquality steel.

Traditionally uncompromising care for details is projected to each unit of this new rifle and will make envy of other shooters be it at target shooting or while hunting.

BROŃ PALNA BOCZNEGO ZAPŁONU
