Numer katalogowy	5274-6404-RXTKABX
Kod producenta	5274-6404-RXTKABX
Producent	Česká zbrojovka
Kaliber	.223 Rem.

Opis produktu

Simple, lightweight, quick, accurate, powerful, reliable, durable - these are attributes a „working“ rifle intended for everyday use in wilderness should have. The user expects to hunt with it as well as use it for protection against predators, in the worst case even those most dangerous two-legged ones. And the compact CZ 527 CARBINE SYNTHETIC model offers just that. Česká zbrojovka has managed to combine the qualities of their legendary mini Mauser in the powerful .223 REM and 7.62x39 calibres with the modern polymer stock in soft-touch finish. This rifle, which will cope with even the most adverse conditions, is equipped with mechanical sights, the rear sight is adjustable for windage and the red fibre optic front sight is height adjustable.

- extremely reliable mini Mauser system
- rear sight adjustable for windage
- fibre optic front sight for reliable shooting in low light
- cold hammer forged 470 mm long barrel
- 5-round all-metal magazine
- single-set trigger
- soft-touch finish polymer stick for better grip
- 1" rubber buttplate
